Note: Location given only by town lot number in reserve number order.

RESERVE NUMBER: 941

PURPOSE: "Aboriginals."

LOCATION: Avon District (500 acres).

No files located.

CREATED: Possibly 1883

CANCELLED: 6 August 1976

No information is available on this reserve other than that on the Crown Reserves register. Its existence has not been definitely recorded in any other source found to date. As a starting point for further research – given the obvious connection with Reserve 940 – a comment from Peter Biskup's *Not Slaves, Not Citizens*, p.48, notes the Church of England had two children's institutions in the 1880s. The first was near Busselton (Reserve 940). The second was transferred from Perth to the Swan in the 1880s. Other sources show this to be the Swan Native and Half-Caste Home. This institution may have been temporarily allocated Reserve 941 though it may have eventually held a freehold title.

RESERVE NUMBER: 2945

PURPOSE: "Private Use."

LOCATION: Ewlyamartup Agricultural Area Location 69, later Location 110 (140 acres).

DOLA FILE NUMBER: 541: 1508/1894

CREATED: 21 June 1895

CANCELLED: 13 November 1896

Allocated to Moraitch (possibly spelt Moraich) to farm at his request. Moraitch received strong support from the Katanning Resident Magistrate but

this support was later withdrawn. In 1896, the magistrate wrote that the land was not being used, a statement which probably failed to take into account earlier comments that Moraitch was often away as he needed to earn money to develop his own farm. The farm was taken from Moraitch and the land given to recently arrived white settlers. A map of this reserve could not be located.

RESERVE NUMBER: 2946

PURPOSE: "Private Use."

LOCATION: Ewlyamartup Agricultural Area Location 112 (150 acres).

DOLA FILE NUMBER: 541: 1508/1894

CREATED: 21 June 1895

CANCELLED: 13 November 1896

Allocated to Johnny Penny to farm at his request. Like Moraitch, Penny received strong support from the Katanning Resident Magistrate but this support was also later withdrawn. In 1896, the magistrate wrote that the land was not being used, a statement which probably failed to take into account earlier comments that Penny was often away as he needed to earn money to develop his own farm. The farm was taken from Penny and the land given to recently arrived white settlers. A map of this reserve could not be located.

RESERVE NUMBER: 2947

PURPOSE: "Private Use."

LOCATION: Ewlyamartup Agricultural Area Location 72, later Location 111 (150 acres).

DOLA FILE NUMBER: 541: 1508/1894

CREATED: 21 June 1895

CANCELLED: 12 November 1896

Allocated to William Farmer to farm at his request. Farmer also received strong support from the Katanning Resident Magistrate which was later withdrawn. In the same manner as Moraitch and Penny, Farmer lost his land which was given over to recently arrived white settlers. A map of this reserve could not be located.

Created as a camping site, the reserve came to serve the nearby mission. Conditions at the site in the 1930s were difficult and caused great hardship, particularly the severe shortage of water and poor sanitation. As a result of these conditions, a number of infants died from diseases. It was claimed parents were told by a missionary not to bring their children to the mission hospital "as they died in any case and they might just as well die on the reserve." In 1972, control of the reserve was transferred to the Department for Community Welfare.

DOLA FILE NUMBER: 01465-1946-01

CREATED: 1 November 1946

CANCELLED: 16 July 1954

Intended to replace reserve 21096, this site had a good water supply and was close to trucking yards. It was cancelled for two reasons. First, pastoralists claimed that the site hindered their industry. Second, DNA could not get people to camp on the site. Reserve 22585 was replaced by Reserve 23985.

RESERVE NUMBER: 22806

PURPOSE: "Natives."

LOCATION: Moora; Melbourne Locations 28-37, 88, 90-94, 97, 98 and 908 (4.3.0 acres).

AAD FILE NUMBER: 993: 756/1948

CREATED: 11 June 1948

CANCELLED: 2 November 1956

The Department of Native Affairs bought the lots from the Moora Roads Board after both agreed that Aborigines visiting the town and staying overnight needed a place to camp. The DOLA file refers to water and sanitation problems and also suggests the reserve was not much used. In 1955, the Roads Board requested the land to build houses for Aborigines. The Lands Department declared the reserve was not suitable for the purpose. The Roads Board were allowed to purchase the land with the proviso they did not use it for Aboriginal housing.

In 1950, DNA requested a site in Broome to house an employee. In 1961, the Department requested the purpose be changed to "Native Housing," with the aim of using the site to provide housing for Aboriginal aged pensioners. The change in purpose was effected on 9 February 1962. The file does not indicate what development took place but control of the site was transferred to the DCW in 1972. The reasons for the cancellation of the reserve are not known.

LOCATION: Darcy Street, Broomehill Lot 535 (5 acres).

AAD FILE NUMBER: 993: 526/1949

CREATED: 12 October 1951

Created as a response to an increase in the Aboriginal population and tensions with the white population. The file does not indicate what happened to this reserve and the Crown Reserves register does not show it as having been cancelled or having its purpose changed. A map of this reserve could not be located.

RESERVE NUMBER: 23829

LOCATION: Urban Street, Wagin Lots 769-772, 775-777, 788, 789, 799 and 1772 (about 16.2.36.4 acres).

DOLA FILE NUMBER: 3132/1953

AAD FILE NUMBERS: 3413: 31-2-25-2

CREATED: 2 October 1954

CANCELLED: Not cancelled.

Created because the Department of Native Affairs believed there was "an urgent need" for a camping ground for Aborigines at Wagin. The AAD file contains a list of residents from 1962. Basic accommodation was built on the

reserve but this had been demolished by 1970 and the former residents were moved to town housing. In 1972 control was transferred to DCW. The shire then requested the site for recreational purposes and, as there was no objection from DCW, on 31 January 1975 the purpose was changed to "Recreation." A map of this reserve could not be located.

DOLA FILE NUMBER: 4133 - 3677/1959

CREATED: 12 February 1960

CANCELLED: 25 September 1981

The Commissioner of Native Welfare requested land for camping and nine town blocks. In 1972, the reserve was transferred to DCW who referred to the site as a "residential reserve". However, there is no indication on file as to whether any houses were built. If any were, they were gone or uninhabitable by 1980. In 1981, DCW declared that the land was no longer required.

PURPOSE: "Camping Natives."

LOCATION: Geraldton Lot 1736 (5 acres).

No files located.

CANCELLED: 18 February 1972

This reserve was evidently created to provide a camping area. On 22 September 1967, the purpose of the reserve was changed to "Recreation" and it was vested with the Town of Geraldton. It is likely that the vesting was changed because at the time the Department was moving Aboriginal people into town housing and it considered camping reserves were no

longer required. The reserve was cancelled in 1972. A map of this reserve could not be located.

CANCELLED: 12 April 1991

The land was set aside following a request from DNW, which sought to provide housing allotments for

Aboriginal families. At some stage, the reserve was transferred to SHC, although a change in vesting does not appear on the Crown Reserves Register. By 1991, Homeswest had no further use for the reserve as it was unoccupied and in a remote part of the town site. All that remained were three houses which were condemned as unfit for habitation and demolished. The site was amalgamated with a "Community Purposes" reserve and vested with the Gnowangerup Shire.

DNW requested a portion of the railway water supply reserve be set aside for use as a housing site for Aborigines. In 1965, the tenant of lot 329 made an application under Section 9 of the Native Welfare Act (1963) to purchase the land from DNW. The purpose of the reserve was then changed to "Use and Requirements of the Department of Native Welfare" to facilitate its disposal. However, the applicant died and his widow did not proceed with the application and the original purpose was restored in 1968. In 1972, the reserve was transferred to SHC although no change in vesting appears on the Crown Reserves Register. A search at Homeswest revealed that the reserve was no longer being specifically used for Aboriginal housing.

DNW requested at least six blocks in the new town of Kununurra to house Aborigines who were permanently employed and resident in the town. Following the DNW's request, the Shire resolved that on no condition were sub-standard houses to be built within the town, placing an extra financial burden on the Department. The reserve was cancelled because of confusion with regard to lot numbers. The original lots were found to be unsuitable when the town site was resurveyed and two of them rendered non-existent. DNW requested lot 152 for transitional housing for Aborigines. In 1972, the reserve was evidently transferred to SHC, however, there is no change in vesting on the Crown Reserves Register to match this. At some point SHC

The land was required for transitional housing. The lot originally requested was given to SHC and lot 356 was a substitute. After Reserve 29703 was declared, the shire wrote to the Lands Department stating that the reserve was in an unsuitable location. There was concern that any developments would 'turn into a meeting place for the natives and become overcrowded'. DNW did not develop the block because there were no facilities or access roads. In 1972, the reserve was evidently transferred to SHC, however, there is no change in vesting on the Crown Reserves Register to match this. A search at Homeswest revealed that the reserve is no longer specifically used for Aboriginal housing.

DOLA FILE NUMBER: 1459/1977

CREATED: 2 February 1979

CANCELLED: Not cancelled.

The land was excised from State Forest no. 4 and vested with SHC. By 1991, the site had been unoccupied for six years, and was a cause of concern in the community. A proposal for rejuvenation appears to have had the support of the Aboriginal community and on 12 July, 1991, the purpose was changed to "Workers Accommodation and Aboriginal Housing", again the vesting was with SHC. A search at Homeswest confirmed that the reserve is no longer specifically used for Aboriginal housing.

DOLA FILE NUMBER: 9017/1910
CREATED: 14 January 1886
CANCELLED: 5 May 1950
Temporarily gazetted for a mission. It was noted the mission might fail so it was recommended that the land not be alienated. The file reviewed does not indicate the extent to which the land was used by Aboriginal people, nor does it give a reason for cancellation (see also Reserve 1765).

RESERVE NUMBER: 967
PURPOSE: "Benedictine Mission."

LOCATION: 'Marah', Melbourne District (25000.0.0 acres).
CREATED: 22 April 1886

CREATED: 3 December 1890
CANCELLED: 5 May 1950

RESERVE NUMBER: 2768
PURPOSE: "Native Housing."
LOCATION: Grosser Street, Brookton, sub-lot 47 (5 acres)
DOLA FILE NUMBER: 3446/1963
CREATED: 3 July 1963
CANCELLED: Not cancelled.
In keeping with the policy of assimilation (see Section I of this report), the reserve was created to move the Aboriginal population from camping reserves into government housing. In 1972, the reserve was evidently transferred to SHC, however, there is no change on the Crown Reserves Register to match this. A search at Homeswest revealed that the reserve continues to be used exclusively for Aboriginal housing.

RESERVE NUMBER: 4672
PURPOSE: "Protection of Cave."
LOCATION: Roe District 3 (1000 acres).
No files located.
CREATED: 25 February 1915
CANCELLED: Not cancelled.
Created to protect Aboriginal Art. On 5 April 1974, the area was proclaimed

under the Aboriginal Heritage Act 1972. On 1 August, the purpose was changed to "Water Supply and Tourism" and the reserve was vested with the Minister for Water Resources.

RESERVE NUMBER: 4681
PURPOSE: "Hospital for Aboriginals."
LOCATION: Katanning lots 398 and 399 (0.2.28 acres).
DOLA FILE NUMBER: 541: 8878/1897
CREATED: 15 October 1897
CANCELLED: 13 April 1922

Intended to support a hospital for Aborigines. Some development occurred, but from the beginning of the project, there was pressure to relocate the hospital for Aborigines nearer to an existing hospital. By 1905, local residents were hostile to the hospital, citing its closeness to a school and their fear of the spread of contagious diseases. By 1917, the site was unoccupied and soon after was taken over by the Railway Department.

RESERVE NUMBER: 9368
PURPOSE: "Aborigines."
LOCATION: Welshpool (245 acres).
DOLA FILE NUMBER: 1428/1904
CREATED: 9 September 1904
CANCELLED: 28 November 1918

In 1904, the Welshpool native settlement became a feeding depot. As a result, the original Welshpool reserve (Reserve 985) was cancelled and this smaller reserve took its place. Early in 1908, control of this site was given to the Aborigines Inland Mission of Australia, but by the end of that year, the Mission ended its involvement. Though few, if any, Aborigines remained on the reserve, the DAF maintained it as a refuge for Aborigines (particularly elderly Aboriginal people). In 1918, DAF considered the newly opened Moore River settlement could perform this function and Reserve 9368 was cancelled.

RESERVE NUMBER: 9721
PURPOSE: "Cemetery for Aboriginals."
LOCATION: Wyndham (1 acre).
DOLA FILE NUMBER: 5859/1904
CREATED: 23 June 1905
CANCELLED: 30 November 1951
As the title suggests, it was used as a burial ground for Aboriginal people. By the 1940s, the site was considered unsuitable for the purpose and Reserve 21918 was created to take its place.

RESERVE NUMBER: 9779
PURPOSE: "Aborigines."
LOCATION: Broome Location 465 (550 acres).
DOLA FILE NUMBER: 3282/1905
CREATED: 30 June 1905
CANCELLED: 29 November 1907
The reserve was created and leased to Father Nicholas for him to provide rations and to build shelters for Aborigines at Broome. His operation was to be subsidised by the government. It is not known why the reserve was cancelled, but it may have been simply that the operation was moved to a new site.

RESERVE NUMBER: 10717
PURPOSE: "Use and Benefit of Aboriginal Inhabitants."
LOCATION: Marble Bar lot 291 (2.1163 hectares).
AAD FILE NUMBER: 4035: 10108/1904
CREATED: 28 March 1907
CANCELLED: 17 March 1989
Originally a recreational area. In 1984, the reserve was requested by the Pipunya Community Inc. for a temporary camping site. On 7 February 1986, it was vested in the ALT. However, the Pipunya community soon decided the site was not suitable as it was barren, isolated, prone to flooding and near a cemetery. On 28 August 1987, it was vested in the Shire of East Pilbara and the purpose changed to "Recreation."
RESERVE NUMBER: 10967
PURPOSE: "Hospital for Aborigines."

LOCATION: Onslow Lots 141 and 142 (2 acres).

LOCATION: Barrow Island (50,000 acres).
No files located.
CREATED: 20 March 1908

The function of the hospital probably included quarantine. The idea of using the island appears to have been soon abandoned, possibly in favour of Dorre Island (Reserve 11603).

RESERVE NUMBER: 11332
PURPOSE: "Drysdale River Mission."
LOCATION: Doongan District, Public Plan 147/300 (approx. 300,000 acres).

CREATED: 12 January 1917
CANCELLED: 13 October 1972
Set up to provide a refuge for women, and a place for Aborigines from Beagle Bay to reside (under supervision) when visiting Broome. It was considered a good spot because it had access to fishing. The file examined gives no indication of the degree to which the reserve was used by Aboriginal people.

RESERVE NUMBER: 16937
PURPOSE: "Aborigines."
LOCATION: Finucane Island, near Port Hedland (1542 acres).
AAD FILE NUMBER: 1733: 388/1932
CREATED: 10 May 1918
CANCELLED: 28 August 1964
Finucane Island was chosen as a site for a hospital for female Aborigines who had venereal diseases. However, it was

never used for that purpose. Instead, in 1919, a venereal diseases hospital was opened in Port Hedland. As late as 1953, DNA expressed interest in using Finucane Island to build an institute for "indigent natives" but it remained unused. In 1964, when inquiries were made about the island, DNA decided it served no useful purpose and relinquished the land.

RESERVE NUMBER: 17014

In 1997, it was being used by non-government agencies providing a variety of family and community support services.

Created as a camping site from land purchased by DNA from UAM. In 1955, the reserve was leased back to UAM. The purpose was changed again on 2 September 1966 to "Native Welfare" as DNW resumed control of the reserve in order to use it as a training farm. On 16 January 1981, the reserve was vested with the Minister for Education and the

Education Department took over the administration.

RESERVE NUMBER: 22778

PURPOSE: "Use of Aboriginal Children."

LOCATION: Frederick and Stewart Streets, Broome, lots 71-74 (2.2 acres).

DOLA FILE NUMBER: 2051/1939

CREATED: 25 March 1948

CANCELLED: Not cancelled.

The Sisters of St John of God had established an orphanage to help Aboriginal children in the Broome, Beagle Bay area (see Reserve 22110). By 1948, more room was required for extra facilities and the reserve was created to complement the existing one; Reserve 22110. In 1964, lots 73 and 74 were surrendered by the Order to form Reserve 27510. In 1982, there was a recorded change of purpose to "Use and Benefit of Aboriginal Inhabitants", so that a greater number of Aborigines could take advantage of the reserve. By 1988, the reserve was undeveloped, therefore, DOLA suggested a transfer of the reserve to the ALT. Frustrated by a lack of adequate resources to develop the reserve, the Sisters agreed to relinquish it. However, in 1995, DOLA advised the Order that the surrender action was never completed and the reserve remains under the Order's jurisdiction.

LOCATION: Forrest District (about 1000 acres).

DOLA FILE NUMBER: 7750/1911

CREATED: 10 February 1950

CANCELLED: 9 November 1956

Centred around White Springs Station, this reserve was created with the intention of establishing a mission. In March 1949, the property was vested with the Roman Catholic Church. The Commissioner of Native Affairs, Stanley Middleton, strongly supported the mission and DNA contributed towards initial capital expenditure. In 1950, the government gave a further amount. However, the mission had little success, partly because it was outside the area normally frequented by the Pilbara Aborigines it was supposed to serve. In 1951, it was abandoned, and when the reserve was cancelled, the property was given to the Agricultural Department for pastoral research.

DOLA FILE NUMBER: 3277/1951; 3277/568
CREATED: 15 May 1953
CANCELLED: Not cancelled.
UAM requested land at Fitzroy Crossing that would be sufficient for a mission house and grounds. The reserve was created with a 99-year lease to the Mission, to be held in trust for the stated purpose. It appears that UAM did not use the land, developing their base on Reserve 9656 instead (now vested with the ALT). In 1974, a proposal to transfer the vesting of Reserve 23613 to the ALT fell through because of internal dissension within UAM. An understanding was reached between UAM, the Minister for Aboriginal Affairs, and the Junjuwa Aboriginal Council that UAM would surrender the lease. The reserve was to be vested with the ALT and a 99 year lease given to Junjuwa. UAM surrendered the lease in April 1987, however, the reserve remains unvested.
